

RIBBON WIRE CUTTING MACHINE TM-330

Product Description

Model: TM-HS-330

Features

- Suitable for cutting, head-stripping, middle-stripping and tail-stripping of single-strand and multi-strand wire
- Can process wires in such industries as electronic products, electric appliance, toys and auto motorcycle parts, etc.
- With a microcomputer-controlled very clean designed mechanism, it cuts and strips wire automatically.
- Various cutting style and programmable length and distance can suit any wire assembly needed.

Specification

Model	TM-HS 330
Weight	32KG
Overall Dimension	420*290*255mm
Power	200-450W
Mode of Display	LCD Liquid Crystal Display Screen
Cutting Length	1mm-15000mm
Cutting Tolerance	$\leq 0.002 * L$ (Cutting Screen)
Stripping Length	HEAD 0-100mm, TAIL 0-80mm
Cutting the Cross-Sectional Area of Wire Core	0.2-16mm ²
Maximum Diameter of Conduit Pipe	13
Middle-Stripping	13 Places of Stripping
Material Of Knife	Tungsten Steel
Stripping Speed	2000-5000PCS/H
Mode Of Driving	Four Wheeled Drive
Adjusting Speed	9 Slowest, 0 Fastest
