

Extruder Line

PRODUCT DESCRIPTION

The range of products which we manufacture and supply to the customers are inclusive of a high quality of Extrusion/Accumulator Lines which are used in the aerospace system, in refrigerators and in air conditioning systems. They have been priced at very affordable rates in the market. These products have been made using a high quality of raw materials which have been bought from well known vendors and they offer a high performance to the customers and are used in various industries.

SYSTEM COMPONENTS

Serial number	Item	Number	Unit	Remark
01	Single stranding machine pay-off400- 630mm	1	Set	
02	Tension straighten stand	1	set	
03	Φ70mm extruder	1	Set	
04	Φ50mm Auxliliary extruder	1	Set	
05	Control panel	1	Set	
06	Stainless steel trough	1	Set	
07	cable accumulator	1	Set	
08	Double wheel capstan	1	Set	
09	Laser diameter gauge	1	Set	
10	Heat type PowderPassMachine	1	Set	
11	High speed printing machine	1	Set	
12	Metering	1	Set	
13	Double axis take up	1	Set	
14	Attached spare parts and tools	1	Suit	
15	Specification of operating and maintain	1	Copy	

FUNCTIONAL SPECIFICATION

- 1.Application: Apply to manufacture of PVC, PE insulation and sheath of BV cable or power cable.
- 2.Color: bright blue or green(as customer's requirement)
- 3.100% extrusion material : PVC, PE, PP, SR—PVC。Plastication100%
- 4.Max wire speed:500m/min (As per to wire diameter)
- 5.Max capacity : 150kg/h (opened machine head type)
- 6.Suitable finished diameter : 1.5mm~6.0mm
- 7.Centre height of machine : 1000mm
- 8.Operation direction : left () right ()
9. Line mounting type: Up (√) down ()
